I've been a know it all I take impressive falls  
I've shunted and grunted and pushed them away  
With not what I said  
But what I didn't say  
Only to find a chink  
In my, hearts armor sleeve  
But who's to say I can't  
Recover my way

Everybody walks a dark path on their own  
You gotta make the hard turns when you're all alone  
Go faster! Go Faster!  
I gotta make it outta this disaster

Everybody walks a dark path on their own  
You gotta make the hard turns when you're all alone  
Go faster! Go Faster!  
I gotta make it outta this disaster alive

I've been the smartest one I've been the dumbest one  
I've compromised myself so much  
That I didn't recognize my own reflection  
And when I think about  
All the times I had to shut you out  
It seemed so pointless to be caught up waiting  
When I just had to just ship to save me

Everybody walks a dark path on their own  
You gotta make the hard turns when you're all alone  
Go faster! Go Faster!  
I gotta make it outta this disaster

Everybody walks a dark path on their own  
You gotta make the hard turns when you're all alone  
Go faster! Go Faster!  
I gotta make it outta this disaster alive

And when it went through my head  
I remember I couldn't breath  
I am made of skin and memories, Oh it seems  
That everyone expects more

When you've got one foot out the door  
And its time I broke free  
From this catastrophe

Everybody walks a dark path on their own  
Go faster! Go Faster!  
I gotta make it outta this disaster

Everybody walks a dark path on their own  
You gotta make the hard turns when you're all alone  
Go faster! Go Faster!  
I gotta make it outta this disaster alive  
ALIVE
