Goodbye

We're facing the same day

Over and over

You're repeating yourself

And it's boring me to tears

I would just like to ask

Are you owned by your fears?

What happened to the world that moved so fast?

The people in it had to abandon their pasts

Just to keep up with the progress

You're hopeless, you lost this

I'm just being honest

All of you deserve this shallow judgment

There's nowhere to go

But up from here

Take your time

Don't bother me with shallow alibis

It's you life and your decision

To do nothing with it

So admit it now

There's nowhere to go

But up from here

[Craig Owens:]

Don't bother me with shallow alibis

And filthy lies

Looking at you I can see right through your eyes

(There's no, there's no,

There's no where left to go)

Goodbye

We're facing the same day

Over and over

I've escaped this feeling, it's back

And I know that it's not right

I know that it's not right

There's nowhere to go

But up from here
