Kids don't venture out after dark!
Your best moves can't compare to,
Their words, their skills, their violent tools.
Kids don't venture out after dark!
Trust me this place will soon be,
Cold, dead, and we will all be free.

Won't settle for their answer this time
Won't settle for the answer this time.
We won't settle for it
Won't settle for your answer this time

We're breaking walls and we'll end up just fine.
We won't settle for it.

Kids don't venture out after dark!
Old habits are dying tonight
We'll set the fires
And we'll watch the smoke rise
Kids don't venture out after dark!
Trust me this place will soon be,
Ashes charred as black as can be.
