"Come On You People"

o yeah
o yeah
oh my God
come on you people
come on you people
come on, come on
come on, come on
there will come a time
there will come a time
when you have to change your life
when you have to change your life
change it
change it
oh Lord
what you say you got to mean
what you say you got to mean
and what you say you got to do
and what you say you got to do
oh oh oh
oh oh oh
oh oh oh
oh oh oh
if you got a burden
if you got a burden
you got to shake it off yourself
shake it off yourself
shake it off
shake it off
come on you people
come on you people
come on, come on
come on, come on
