Each day connects to the next  
I do my routines by reflex  
Lifes an endless row of days  
But the heart longs to get away

And I wish I could fly out of here  
Out of this town

Let no routine keep us down  
And foe once let not tv  
Run our lives  
So I one day can say true  
I have lived once too

And I wish I could fly out of here  
Out of this town  
Id follow the wind,  
Leave everything behind  
That holds me down

I wish I could fly away from here  
Out of this town  
Id leave them all behind,  
Where they are stuck  
Waiting for life  
(Love)
