Visit "[Rip Off](#)" on MotoLyrics.com

It's time for you to see
what you really want to be
what you want to do
and what you think of me

Take a look inside
at everything you try to hide
don't be afraid
take my hand and follow me

and I can show you a better way
if you would only follow me
and I can show you what life should be
if you would only follow me
Tell you what's on my mind
and you are going to find
that I'm trying
to do the best I can

If you tried to see
everything I tried to be
then I know you'll
want me to be your man

If you tried to see
and if you want to follow me
and if you want to be
