I've been loving you too long to stop now  
You are tired and you want to be free  
My love is growin' stronger as you become a habit to  
me

I've been loving you too long I don't wanna stop now

With you my life has been so wonderful, I can't stop  
now

You are tired and your love is growin' colder  
My love is growin' stronger as our affair grows older  
Well, I've been loving you too long

I've been loving you, oh, too long  
Well, I've been loving you too long to stop now
