"The Midnight Oil"

That call was from the office and I guess I'll have to
burn the midnight oil again
And hon' you know how much the boss depends on me
to lend a helping hand
I watch him in the mirror as I lie and tell him I don't
know how late I'll be
While I'm puttin' on my makeup I'm puttin' on the one
that really loves me
The girls all got together and they called to see if I
could have some fun tonight
But you know me the only thing I do is go to work and
watch TV
And I watch him in the mirror as I lie and tell him I don't
know how late I'll be
While I'm puttin' on my makeup I'm puttin' on the one
that really loves me
And tonight I'll cheat again and tomorrow I'll be sorry
And I'll feel kind of dirty cause I'll have the midnight oil
all over me
God knows his dream would shatter if he knew the
devil had me and won't set me free
While I'm puttin' on my makeup I'm puttin' on the one
that really loves me
While I'm puttin' on my makeup I'm puttin' on the one
that really loves me
