Iâ€™ve been searching all my life to find someone like
you

With the one I thought Iâ€™d never find but now

I can almost see the future

Iâ€™m the student, youâ€™re the teacher

Wonâ€™t you show me all the things I long to learn

We were meant for each other

Youâ€™re the spirit in my soul

Stay right here beside me

And our love will never grow old

We were meant for each other

From the day that we were born

Donâ€™t ever let the magic die

Now we found it, now we found it, you and I

I canâ€™t imagine how I lived with all the emptiness til I
met you

Filled the space that I was saving, though I didnâ€™t
know why

Oh letâ€™s bring our hearts together

While the feelingâ€™s strong and new

And weâ€™ll never lose the love we found at last

We were meant for each other

Youâ€™re the spirit in my soul

Stay right here beside me

And our love will never grow old

We were meant for each other

From the day that we were born

Donâ€™t ever let the magic die

Now we found it, now we found it, you and I

You and I

We were meant for each other

Youâ€™re the spirit in my soul

Stay right here beside me

And our love will never grow old

We were meant for each other

From the day that we were born
Don't ever let the magic die
