The Iron Maiden's always there, preaching to people  
everywhere  
Always telling us what to do, you blind us with your lies  
not truth  
Open the door and let us in, Iron Maiden, Iron Maiden  
To have the luxuries there within, Iron Maiden, Iron  
Maiden  
You try to put us in a mould, our life and future you  
have sold

Always telling us what to do, same old story nothing  
new  
Let us in from out of the cold, you'll keep us there until  
we're old  
The money's run dry and there's nothing left  
We're going mad, do you get the drift ?
