

Broken Bones "Lesson"

Visit "[Lesson](#)" on MotoLyrics.com

No way to control my obsession
Playing on my mind, that makes me blind
It teaches me a lesson, got to get it out of my system
The less, depression, teacher teaches me a lesson
Confusion, delusion, tell yourself something you don't
believe in
Rebel against the feeling within
You all know that it's there, it's in the back of your mind

It's gonna get you sooner, or it's gonna get you later
Believe in me, not the voice
Inside I know the best way that we can get by
Believe in me - Do you believe in me?
No way to control the pain
The pain I see inside me
What makes you do it again
Again, again, again, again
