Going to the pub, It's Saturday Night
Cashed my giro, feelin' alright
Been two weeks without any money
Now I'm drunk, I think it's funny
I'm sitting down, I've got a drink
I'm too fucked, I just can't think
Leave me alone, I'm on my own
Get out of my brain, just leave me alone

I was only sitting at the front
And they're all fighting, what's the point
Thatchers' system and drinking beer
Has destroyed their brains and made them fear
Made them fear [x3]
Destroyed their brains and made them fear
