I'm too tired, I cannot sleep
Flashbacks that keep me awake
I wanna run, but my legs won't make it
Life's fucked, guess I'll have to fake it
Schizo inside my head [x3]
Schizo
You sit in my head and criticise
You're everything that I despise
You point your finger and it points at me
Why won't you let me be?

Don't say I'm right when you know I'm wrong
A fucked up feeling that I don't belong
I hear you laughing inside my head
Guess I'd be better off dead
How much do I have to take?
Pressure in my head, it suffocates
Can't breathe, I'm lacking breath
I'll take off some fuckers head
Take off the head
