Another suicide, a cry for help
Sympathy, neglect, what the hell
Can't live up to expectations
They push too hard at your limitations
Systematic Abuse [x4]
They bite off more than you can chew
Put you on a pedestal, but look at you
All fucked up, too tired to think

All cries for help, all in vain
Systematic Abuse [x4]
Fuck all Society [x4]
Sitting in a corner all alone
Gun in hand, crying on the phone
No one can help you, they don't know
Pull the trigger, it's time to go.
Systematic, systematic, systematic abuse [x4]
