I hate to wake and see the day  
Cuz all the monsters lead the way  
It makes me mad, it makes me hurt  
As the innocent lives all hit the dirt  
I hate to take a look around  
At empty minds polluted grounds  
Starving children, rapist priest  
This madness will never cease

The World Can Rape  
The World Can Hate  
The World Can Kill  
The World Can Wait

I hate to take a look into the past  
Atomic bombs and mustard gas  
All the people that screamed and burned  
And the rest of people that never learned  
I hate to think what will happen tomorrow  
All the tears and all the sorrow  
Another war another fight  
No one gives a fuck about human rights

The World Can Rape  
The World Can Hate  
The World Can Kill  
The World Can Wait

So you wanna Rape  
So you wanna Hate  
So you wanna Kill  
Just Fucking Wait

The World Can Rape  
The World Can Hate  
The World Can Kill  
The World Can Wait
