Where does it go from it all
I don't know
Why do I feel
Like I hurt
I hurt for you
Vampira feeds off my blood
She wants to
I'm burning black, just like you

And we'll last forever
We can make it on through the day
Where does it all fall apart
And we'll take the sky way back to my way
Fall and die away
Why do I feel so apart

I spilled my guts on the floor
I'm the prey
Eaten by all of your lies
I lied for you
Stand in the back
Of the crowd
What to do
Scared of the ghosts in your eyes
And we'll last forever
We can make it on through the day
Where does it all fall apart
And we'll take the sky way back to my way
Fall and die away
Why do I feel so apart

Where does it go from it all
Why do I feel
Like I hurt

And we'll last forever
We can make it on through the day
Where does it all fall apart
And we'll take the sky way back to my way
Fall and die away
Why do I feel so apart

I hurt for you

I hurt for you
