

Broken Heart College "Thank You"

Visit "[Thank You](#)" on MotoLyrics.com

I can't believe I've got so far
Of this life I just can't get enough
With the sound of music inside my head
And a cool breeze through my hair

Every day I'm so thankful that

I'm flying to what I believe
I've reached my dreams and now I see

And now my future seems so clear
Forget the past the best is here
When everything seems so turned down
Stand up and start to jump around

Just believe in yourself now

I'm flying to what I believe
I've reached my dreams and now I see

Don't listen to what they say
Just follow your own way

I'm flying to what I believe
I've reached my dreams and now I see
