Fuck,
Aahh,

Oh, I'm not addicted to drugs
I'm addicted to being hurt
It may seem bezerk
But none of these stress relievers work

Poppin pill
After pill

Trying to get my head straight
Trying to over power the pain until the next day
But it aint happening
I'm an addict that's half asleep

While the other half of me is trapped in a series of bad
dreams
My current position was trippin on shrooms, and acid
casts,
Till my eyes collapsed in suicide was an after math

(Chorus)
I'm falling down erasing memories you gave to me
I'm still alive and nothing you can say can make me
breathe

So please take away the pain that hurts me
I don't wanna be alone and thirsty

So many drugs to push the pain I have intrapped in me
Cause I don't wanna live my life inside this fantasy

So please take away the pain that fills me
I don't wanna be the one that kills me

I can't take this pain cause I'm DIEING
I can't close my eyes cause I'm CRYING

Cause these pills, are taking over my brain, side
effect's causes pain I think I'm going Insane (INSANE)

I can't take this pain cause I'm DIEING
I can't close my eyes cause I'm CRYING

Cause these pills, are taking over my brain, side
effect's causes pain I think I'm going Insane (INSANE)
(End of Chorus)

I guess I'm insane indeed
Cause no matter what the fuck I do, you never seem
happy
Adapting,
To stronger drugs,
Larger quantities
Killing my self constantly
My eyes start to bleed

The feeling of being alive just,
Isn't enough
Serences I stuff with heroine,
I'm feeling the rush

Inside of my vains, and my brain's fried from filling too
much
With drugs, I'm willing to crush my chances of being in
love

(Chorus)

Maybe because you made me that way
Turn me into a monster
I would of never became
Creating thoughts of dieing
Eventually severed my brain
Irritated my vains
Intoxicated my system

It went on for days
I had cravings of wisdom
I wanted your fucking opinion
So I'm making you listen
Listen to all the of pain I've been feeling recently
Killed myself
And only now do you realize that you miss me

(Chorus)
