You'll pick me up in your old car
We'll drive away and get far
And I hope you fall asleep
With my voice singing in your ear

Holding hands in the summer time
Holding breaths and saving lives
And I hope you understand
The walls are thinner than they stand

You plus me equals everything
I'm not good at math
But that's common sense

The blood in my mouth is a definite sign
That I have been wasting my time
By wondering what everyone thinks
Am I dreaming, we swim or sink

And the light won't shine if you leave
And the time won't fly if you're not with me
The alcohol won't stop it all
And I'm not here to break your fall

You plus me equals everything
I'm not good at math
But that's common sense

And the rain won't stop
And the life won't pause
And the words won't call
And I don't know what I saw.

You plus me equals everything
I'm not good at math
But that's common sense
