They say that we should be thankful, not to take our
rights for granted
I say they should be thankful that we follow a few of
their laws
We don't need their constitution, don't let them dictate
your rights
They tell us "love it or leave it", it's time to stand up
and fight!!!

And we're taught to settle for less, not to question their
authority

The bill of rights, the first amendment's designed to
appease us all
But what do we do when even those meager rights
refuse to be protected
Traffic violations, underage gambling, the draft, the
internet, all a legal joke!

Rights!
Above Laws!
