I gave a lotta time to you  
I thought I did it for a reason  
Oh shit, I messed up  
Now take your dog  
And get the hell out

I gave a lotta love to you  
The physical kind, remember?  
Oh shit, you're not clean?  
Take your clothes  
And get the hell out

Where you been sleeping?  
Cause you ain't been here  
Where are you when I call?  
Someone get me the alcohol

So fuck you and go to hell  
You have no idea  
How good that just felt  
Oh, and baby screw you  
Wait, I forgot  
For you that's nothing new

You didn't tell me you slept around  
I thought you might have brought it up  
Oh Shit, I messed up  
Now leave the condoms  
And get the hell out

You never showed me that video tape  
The one with the crossed off label  
Oh shit, is that my brother?  
Leave the camcorder  
And get the hell out

Who you been banging?  
Cause it's not only me  
Who you been railing?  
That had an STD?

Ah, fuck you and go to hell  
You have no idea  
How good that just felt  
Oh, and baby screw you  
Wait, I forgot  
For you that's nothing new

Go to hell  
Go to hell  
Get the fuck out  
And just go to hell

Ah, fuck you and go to hell  
You have no idea  
How good that just felt  
Oh, and baby screw you  
Wait, I forgot  
For you that's nothing new
