I ain't that old but I've been around
I've been both happy and blue
I've seen the towns and the countryside
But I have never met a girl like you

You're almost perfect
As far as I can see
There's just that final touch of polish
And I've got that you need

An education in love
I bet you know that I'm thinking of
A thorough education in love
The first lesson is - a kiss

I may look innocent to the world
But some things baby don't show
Now I don't tell this to everyone
But I believe that I should let you know

You're almost perfect
You're one of a kind
And with a little bit of practice
You'll be top of the line - with

An education in love...
The second lesson's 'bout - making out

You're almost perfect
But hey so am I
I think we complement each other
Like tequila and Lime

Let's blend together
Let's mix and compound
What I don't have you can give me
And the other way round

An education in love...
Third lesson, well guess let's undress

An education in love...

Final lesson, clear the decks Â– it's about (sex)
