You left me one day  
I could tell it by the look in your eyes  
In your eyes  
Remember the days  
When you held my hand and swore we'll share the sun  
We'll share the sun  
It was a game for two  
And we could never lose  
We count the stars and wrote our poems, we had a lot  
of fun

I'm in love  
I'm so in love  
With you

(So in love)

You ran away one day  
You ran away from pain, away from me  
Away from me  
All moments that we shared  
All moments of fear, once we used to dance  
We used to dance  
It was a trap for two  
We couldn't work it out  
And you could never fake a love, even if you try

I'm in love  
I'm so in love  
With you  
I'm in love  
I'm so in love  
I'm so in love with you

I'm so in love with you

I'm so in love  
So in love  
So in love
