I can't believe that I miss you  
I can't believe that I care  
The first time that I met her, somehow somewhere  
Sha lalalala, we were morning light  
Sha lalalala, we were young

\*CHORUS\*

Somehow I need you more than ever  
We were so young  
Somewhere between the worlds we living  
She looks scared

I've seen the light from your window  
A picture of us on the wall  
You made me walk in the shadows  
Filled with the ashes of my soul  
Sha lalalala, we were morning light  
Sha lalalala, we were young

\*CHORUS\*

Somehow I need you more than ever  
We were so young  
Somewhere between the worlds we living  
She looks scared

Somehow I need you more than ever  
We were so young  
Somewhere between the worlds we living  
She looks scared

I need you more than ever  
We were so young
