Met? a meal and threw it up on sunday
I got a lot of things to learn
Said I wouldn't
I'll be leaving someday
Before my heart starts to burn

So what's the matter with you
Sing me something new
Don't you know the cold and wind, the rain
Don't know the only thing to come and go away

Stand by me, nobody knows
The way it's gonna be
Stand by me, nobody knows
The way it's gonna be

So what's the matter with you
Sing me something new
Don't you know the cold and wind, the rain
Don't know the only thing to come and go away

Stand by me, nobody knows
The way it's gonna be
Stand by me, nobody knows
The way it's gonna be
