Hundreds & thousands
(somerville/steinbachek/bronski)
Turn your head look around you,
Can't you see things are falling apart?
Mother, time to stop them preparing your children for
war.
Ooh, when hard rain falls
Ooh, when hard rain falls
Ooh, when hard rain falls
Ooh, when hard rain falls

Governments and evil lies leading to destruction,
Exploit, degrade, humiliate, communicate with
violence.
Ooh when the fascist call what will you do?
Ooh when the fascist call what will you do?

Here he comes this american man,
Head so full with a deadly plan,
Says he'll tell you says no lies and blood is dripping
From his hands,
The blood is dripping from his hands.
Ooh when hard rain falls
Ooh when hard rain falls
Ooh when the fascists call what will you do?
Ooh when the fascists call what will you do?

Democracy crumbles, under what will you do?
