If you think that we
Found something good
Like I know we have
We can't let it die, no, baby

And if somehow
That good thing should turn bad
Like it sometimes can
We just can't stop trying, no

Make it last
You and me together
Make it last
We'll go on forever

Shine on brightly
Through the night
There's nothing wrong
That we can't make right
Make it last, yeah, last

Sometimes love can be confusing
First you're winning
Then you're losing, oh
We just can't deny it, no

But with a little understanding now
I know we can work it out
Oh, we'll keep it growing stronger

Make it last
You and me together
Make it last
We'll go on forever

Shine on brightly
Through the night
There's nothing wrong
That we can't make right
Don't let go, just hold
On tight, make it last

So many hearts been broken
Don't let it slip away
Make it last

Make it last
You and me together
Make it last
We'll go on forever

Shine on brightly
Through the night
There's nothing wrong
That we can't make right
Make it last

You and me together
Make it last
Take my hand
Understand we can make it
Make it last
Shine on brightly
Through the night

Last, last, make it last
Reach out, make it last...
