Through days of hurt and pain  
My heart cried "all is vain"  
I'd lost all my will to live  
Too many times I tried  
Too many times I failed  
And it only brought tears and shame  
Then I saw that old cross  
Where I won through His loss  
And I knew one more time  
There His strength became mine

Chorus:

That's when Calvary came through once again  
When I lost all my courage to win  
Just when I thought I'd been defeated  
The cross was all I needed  
That's when Calvary came through once again

From the stable to the grave  
My Savior gave and He gave  
His life as a final price  
Now I cherish that tree  
Where I found victory  
Conquering Hell and our foes  
Praise His name, He arose

Repeat Chorus

I will glory in the cross, in the cross  
Lest His suffering all be in vain

Repeat Chorus
