VERSE

How many times must I prove how much I love you
How many ways must my love for you I show
How many times must I rescue you from trouble
For you to know just how much I love you

CHORUS

Didn't I wake you up this morning
Were you clothed in your right mind
When you walked on this problem
Didn't I step right in on time
When you got weak along life's journey
My angel carried you
So you would know just how much I love you

VERSE 2

How many days must I be fence all around you
How many nights must I wipe your tears away
How many storms must I bring you safely through
For you to know just how much I love you

REPEAT CHORUS

CHORUS 2

Didn't I put food on your table
Show UP! when your bills were due
When the pains were racking your body
Didn't I send a healing down to you
When you were lost in sin and sorrow
I died to set you free
So you would know just how much I love you

REPEAT CHORUS 2

So you would know, so you would know how much
So you would know, so you would know how much
So you would know just how much I love you
