"Still Doing Great Things"

Visit "[Still Doing Great Things](#)" on MotoLyrics.com

Are you standing in need of a miracle today
Even doctors don't know what to do
God is able to make a way from no way
He's still able to carry you thru'
If we will just learn to trust and obey
We'll find that our Saviou turns darkness to day
He alone can handle the challeneges life brings
God is still doing great things

God is still doing great things
His power has never changed
Yes, God is able to transform your life
God is still doing great things.

If we let God's power work deep within
He's able to do more than we could comprehend
He alone can handle the challenges life brings
God is still doing great things

God is still doing great things
His power has never changed
Oh yes, God is able to transform your life
God is still doing great things.

Great things; I know He'll do it
If you have a need I konw He's able
If you need healing for your soul
If you need to be made whole
My God is able, He's still able
Oh yes, He is

Yes, God is able to transform your life
God is still doing great things.
Yes, God is able to transform your life
God is still doing great things.

uuuu, He's still doing great things
