I've climbed a mountain, I've walked a valley low  
And there's a hand guiding me where go to  
So I will not question when storm clouds come my way  
For I have placed my trust in You and You alone

Chorus

Still I will trust You

Still I will follow

Still I will listen to Your every calling

While the storm rages on and I can't find my way

Still I will trust You Lord

When in my dark hour

You restored my weary soul

You led me to that resting place and made me whole

Now I cannot question

Though stormy billows roll

My faith is secure, safe is my trust in You alone

Chorus

(Repeat Chorus)
