## CHORUS

I ain't in to pointing fingers.  
Telling who's right or wrong.  
All I really\_\_want.  
Is you back inside of my arms.  
I don't really want to touch.  
Cos' people don't care that much.

## VERSE 1

You think you can play me as a fool.  
Just brake every single rule.  
Let me tell you now.  
I already went to school.

## VERSE 2

Called you on the tellephone.  
Said you comin' home.  
Said you'd be home by ten.  
You come strollin in at one.

## REPEAT CHORUS

## BRIDGE

All I really want to do.  
Is say that I love you.  
But I really can't.  
Cos' that wouldn't be true.
