You put your heart up on a shelf  
I know it's hard to be by yourself  
You need someone that's tough and strong  
Baby someone just came along

I am that man  
You're trying to find  
I am that man  
You had in mind  
And I'll give you all my love  
'Til you understand  
I won't give up  
'Cause I know  
I am

Talk is cheap, it ain't worth a dime  
So don't talk to me, just find me some time  
I'm gonna show you what love can be

My job won't be done until you believe

I am that man  
You're trying to find  
I am that man  
You had in mind  
And I'll give you all my love  
'Til you understand  
I won't give up  
'Cause I know  
I am that man  
You're trying to find  
I am that man  
You had in mind  
And I'll give you all my love  
'Til you understand  
I won't give up  
'Cause I know  
I am that man
