you say i made you fall in love with me
wish i could make you fall in love with you
you believed in the magic that us could be
and what that you and i means one could do
every instinct you had said run from me
that this newfound touch is uncomfortable
and to truly stand naked in front of me
yourself for that then matter is something new
i take no pride knowing that
you avoid the mirror to shun what you despise
never knew the beauty you came here with
til the first time you caught your reflection in my eyes
never you mind what i see in you
grow because you're beautiful, not because i need you
to
grow til you outstretch every single piece of you
heaven will see you through but you gotta believe it's
true
go write your story
even if, in the end, you might outgrow me
ill always treasure the chapter that was mine
and twist through time with a smile knowing you're free

puppy love is real to a puppy
i still wanna feel you touch me
i'm not saying leave me, please just be free
i love you so much, i dont want you to leave me
puppy love's real to a puppy
i still wanna feel you up under me
not saying leave me, please just be free
i love you so much, i dont want you to leave me

the sky all alone is glorious
we behold it but we cant hold it up
when god says that's it and hits the switch
it'll all come tumbling down when its bored with us
sweet you and all your radiance
i can please you, but i can't save you
i adore you and might even open up
but even i cant love you enough for both of us
cant hold you close enough

cant enter the holes youve boarded up
close youre eyes, concentrate on my voice
wanna make your love for me pure, make it a choice

puppy love's real to a puppy
i still wanna feel you touch me
im not saying leave me, please just be free
i love you so much, i dont want you to leave me
puppy love's real to a puppy
i still wanna feel you up under me
im not saying leave me, please just be free
i love you so much, i dont want you to leave me

the sky is there to behold
you just wanna be held when your cold
just grow, stretch out your soul
and if you still want me ill watch you grow old
the sky is there to behold
you just wanna be held when your cold
just grow, stretch out your soul
and if you still want me ill watch you grow old
