If you disagree, I'd choose you over me
This way I'd keep the peace
Keep me inside, don't turn off the light
'Cause without you how can I breathe

Independence day is not for me
When I'm bound to you I feel so free

Pretend that I'm a deer, travelling any year
I need you desperately
Night and day I roam you need to take me home
'Cause on my own I can't see, yeah

Independence day is not for me

When I'm bound to you I feel so free
Independence day is not for me
When I'm bound to you I feel so free

Here are all my keys, enter as you please
North, south, west, center, east
Teach me not to hide in the deadly walls of pride
Speak to me gently

Independence day is not for me
When I'm bound to you I feel so free
Independence day is not for me
When I'm bound to you I feel so free
