

## **Brother's Keeper "What Would Jesus Do"**

Visit "[What Would Jesus Do](#)" on [MotoLyrics.com](#)

I met a man of faith, he taught the way of truth  
A giant among men, from my point of view  
He said that life lies in front of you  
Finding the path is in how you choose

Quiet your noisy heart  
Listen from your knees  
There's a tiny voice  
What would Jesus do

He spoke of trying times, of learning how to choose  
Finding healing love when your heart is bruised  
Someone will be watching over you  
He will speak out when you need Him to

Whispering softly, the wind has a voice  
Asking you what would He do

I met a man of faith, he taught the way of truth  
A giant among men, from my point of view
