"Last Chance"

Well days go fast
In this town of high hopes
And ties don't last
When you use weak ropes
So don't smile at me
Oh can't you see?

That this is your last chance
This is your last chance

Over time
There's something that I've found
It's that stones can't roll
When they're being held down
So don't drag your feet
Don't be so weak

Cuz this is your last chance
This is your last chance
Oh oh oh, oh oh oh,
Oh oh oh, oh oh oh, oh oh

This is your last chance
This is your last chance
Well this is your last chance
Well this is your last chance
