### "C-64"

Visit "[C-64](#)" on [MotoLyrics.com](https://MotoLyrics.com)

i've got 64k memory  
i've got cartridge boards on ebony  
i've got power cords strung out the door  
think i'll set up my bulletin board  
got a modem when i turned thirteen  
but my dad doesn't know what telephony means  
only 1200 baud  
never leave my room  
my skins turning pale  
knocks on the door  
please don't disturb me i'm hear with my c-64(!)  
learn to phreak through the phone company  
i've got friends somewhere in germany  
cracked a file to join mod  
make free long distance calls over seas  
one saturday morning  
the feds at the door  
seize all my nootbooks and take away my commodore!  
:(
