"Electronic Company"

Visit "[Electronic Company](#)" on MotoLyrics.com

with your hardware your almost new
with my eyes closed your almost human
my video won't stand me up tonight
my stereo knows how to warm a room
given a choice i choose electronic company
no pain.. no hastles just electricity

with your hardware your almost new
with my eyes closed your almost human

i'm building a device to take your place
my pentium can not ignore my voice
given a choice i choose electronic company
no pain no hastles
just electricity
given a choice i choose electronic company
no pain no hastles
just electricity
