"Have You Forgotten The Bomb?"

Visit "[Have You Forgotten The Bomb?](#)" on MotoLyrics.com

the atom bomb will never change
still the same same same
as it was yesterday
one thing remains
everyone around me
looks so happy now
who am i to bring this party down down down
have you, have you forgotten about the bomb?
have you, have you forgotten the bomb?
i still find it hard to sleep at night
though i've been assured we've nothing to worry about
anymore
but everyone around me has managed to forget
am i the only one who hasn't gotten over this shit?

have you, have you forgotten about the bomb?
have you, have you forgotten the bomb?
everyone around me looks so happy now
who am i to bring this party down, down, down.
who am i to ask...
have you, have you forgotten about the bomb?
have you, have you forgotten the bomb?
have you, have you forgotten about the bomb?
have you, have you forgotten about the bomb?
