Silver, drifting on high
Deep range star lords
Rebel land of black night
Float by your stars.
Mistress of fear see me towards always
Nova bright shine far beyond all time.
Beings of the fourth kind
Night time wanderers
Ring worlds timeless in ice
Deep inside gods.
Mistress of fear see me towards always
Secret mood of corridors in hyper space
Nova bright shine, far beyond the barriers of night
Take me through the laser beams,
the moving sands of Mars to see.
Silver, drifting on high
Deep range star lords
Rebel land of black night
Float by your star
