it came from planet jerk  
it was a cold machine  
it wore a capa jackson ?  
it said it loved the go-betweens  
you are an astronaut  
but i am from planet..  
JERK!  
i've got a feeling you were gonna bring me down to  
earth  
it came from planet jerk  
it wore a keen disguise  
it was a fiend for disco  
it played a roland synthesizer  
you are an astronaut  
but i am from planet..  
JERK!

i had a feeling you were gonna bring me down to earth  
it came from planet jerk  
it wore a keen disguise  
you should have looked more closely  
should have been much less surprised  
you are an astronaut but  
i am from planet..  
i've got a feeling you were gonna bring me down to  
earth  
oh i've got a feeling you were gonna bring me down to  
earth  
send me back to planet jerk
