"Robot Trouble"

Visit "Robot Trouble" on MotoLyrics.com

silver pants and silver hair tonite an android make

my best friends has claws for hands and xray eyes to
see
--his name is paul--

my parents think my robot's trouble
motherboard and cpu control the way paul thinks
my program was written fast and might not be bug free
--hes four feet tall--

my parents think my robot's trouble
oooh i only wanted a best friend
i only wanted someone that i could trust yeah
shiny head and shiny heart tonite an android make
my robot has hoze for arms
and speaks through l.e.d.

my parents think my robot's trouble
i only wanted a best friend
i only wanted someone that i could trust yeah

silver pants and silver hair tonight a robot make
my best friend has claws for hands and xray eyes to
see

i only wanted a best friend
i only wanted someone that i could trust yeah
