"Sip Of Wine"

On the road and I'm feeling low
Got a ticket for my way back home
I start to feeling like a "Rolling Stone"
Without company.
Down in the bar talking to the trees
I found a lady hanging on my sleeve
I said, 'I thank you but I have to leave'
She said, "Stay with me, I need company"
CHORUS:
Take a sip of my wine
It's gonna make you feel fine
Come tomorrow, leave it all behind.
I didn't see her warning sign
I held her breath, and she was holding mine !
I think I'll be here for a long, long time
If you stay with me, got to be
Take a sip of my wine... (2x)
