What's the matter with you

You don't smile anymore

What's the matter with you

You've forgotten my name for sure

You held me in your arms

You thrilled me with all your charms

Now that you got what you wanted

You say

[CHORUS]

The game is over (game is over)

Game is over, game's over

How could I win when I

Never even knew I played

(Never, never, never

Never knew I played

Never, never, never

Never knew I played

Never, never, never

Never knew I played)

What's the matter with you

You don't want my love anymore

What's the matter with you

You're walking toward the door

You held me in your arms

You thrilled me with all your charms

Now that you got what you wanted

You say

[Repeat CHORUS]

(Never, never, never

Never knew I played

Never, never, never

Never knew I played

Never, never, never

Never knew I played)

You held me in your arms

You thrilled me with all your charms

Now that you got what you wanted

You say

It's over (game is over)

The game's over

The game is over

Now tell me how could I win

When I never even knew I played

(Never, never, never

Never knew I played

Never, never, never

Never knew I played...
