They all tell her  
"Leave the kid alone  
He's got something on his mind"  
I feel like I'm choking  
Drowning in her fear  
And I don't know what's inside  
There was a time when we'd show all our feelings  
In star bright love  
She tries to tell me  
That I'm too young to go  
I'm playing it like a fool  
But this fool can't listen  
To anything she says  
'Cause deep in my heart I know

I had my dreams as a child  
Then the man awoke to reality  
Like memories lost in the past  
All I want now is star bright love
