How come you happened to be hanging around  
When I was looking for a good time?  
I thought I always had my feet on the ground  
I got the feeling that it won't be for long

Take it easy, you're moving too fast  
You're gonna make it but let's make it last  
The way you're dancing ain't good for my soul  
The situation's getting out of control

(You've got me)  
Turning in circles where do I go?  
Turning in circles crazy I know

How come you happened to be hanging around  
When I was looking for a good time?  
I thought I always had my feet on the ground  
I've got the feeling that I'm spinning and spinning

(You've got me)  
Turning in circles where do I go?  
Turning in circles crazy I know

Turning in circles where do I go?  
Turning in circles crazy I know

(You've got me)  
Turning in circles where do I go?  
(You've got me)  
Turning in circles crazy I know

(You've got me)  
Turning in circles where do I go?  
(You've got me)  
Turning in circles crazy I know
