Ohoh, ohoh, ohoh
Better days have come our way
I can feel it in my heart
I can taste on my tongue
That better days have come our way.
So darling take my hand and let me guide you
Through our new land
And with these hands
I'm gonna built our new home
Brick by brick, stone by stone
Cause better days have come our way.
Now darling take a good look around
Before I dig way down to bury our past
And plant our dreams all around
Cause better days have come our way
I can feel it in my heart
I can taste it on my tongue
That better days have come our way.
Now when our home is done
I'm gonna carry you through the door
And give you so much more
Cause better days have come our way.
So lets bury our past way down
And plant our dreams all around
Cause better days have come our way
I can feel it in my heart
I can taste it on my tongue
That better days have come our way.
Ohoh, ohoh better days ohoh, ohoh
Better days have come our wayyyyyyyy.
