It's where my dreams come true
And my prayers got answered when I think of you
And it's where lovers still kiss
In my favorite poem that I miss
In my fantasy world...
And in my fantasy world my visions are never far away
When my paint brush is in my hand
Painting a beautiful picture of you to say
In my fantasy world...
Oh IN my fantasy world it's like turning on the radio
To my favorite oldies station that I know
And hearing an old but classic song
Where the words are so true and all I want to do is sing
along
And all I want to do is sing it so softly to you
In my fanasty world...
