My name is Vernon James and I live to the south of town  
I work my window watching the women go round and  
round

Some people come here for love  
Some people come for fantasy  
When two in the morning comes round  
My baby comes around for me

Someone come, come my someone  
Take the clouds from my eyes, my one  
I know that sometime soon  
One day we'll walk in the sun

I'm taking tickets and watching  
the men always looking down  
Sometimes I feel like an animal in  
the zoo staring out  
No one looks me in the eye  
They save it for the girls inside  
I don't care much what they see  
I know she saves it all for me

Someone come, come my someone  
Take the clouds from my eyes, my one  
I know that sometime soon  
One day we'll walk in the sun

Some people come here for love  
Some come for curiosity  
I know there will be a day  
I know we'll figure out a way

Someone come, come my someone  
Take the clouds from my eyes, my one  
I know that sometime soon  
One day we'll walk in the sun
